

Precision Cargo Services – since 2008 Pinewood Studios - Optical Sound Transfer Department has been a frequent user for shipping overseas and local deliveries / collections.

Staff are friendly and very helpful, quote competitive rates plus have a great tracking and proof of delivery information system via e-mail.

Being located on the Pinewood Studios lot is not only very convenient but if need be you can deal face to face which is a real treat in these times of electronic communications.

I have great trust in Precision Cargo Services to carry out my shipping requirements and are always a pleasure to deal with.
